# PAPER TEMPLATE FOR ICMC 2010, STONY BROOK UNIVERSITY, NY

### **ABSTRACT**

The abstract should be placed at the top left column and should contain about 150 words.

### 1. INTRODUCTION

This template includes all the information about formatting manuscripts for the ICMC 2010. Please follow these guidelines to give the final proceedings a uniform look.

#### 2. PAGE SIZE

The proceedings will be printed on US letter paper  $(8.5" \times 11", \text{ or } 21.6 \text{ cm} \times 28 \text{ cm})$ . All material on each page should fit within a rectangle of  $6.9" \times 9"$   $(17.5 \text{ cm} \times 22.9 \text{ cm})$ , centered on the page, beginning 1" (2.5 cm) from the top of the page and ending 1" (2.5 cm) from the bottom. The left and right margins should be 0.8" (2 cm). The text should be in two 3.3" (8.4 cm) columns with a 0.3" (0.8 cm) gutter. All *text* must be in a two-column format. Text must be fully justified.

## 3. TYPESET TEXT

## 3.1. Normal or Body Text

Please use a 10pt (point) Times font, or other Roman font with serifs, as close as possible in appearance to Times. Please use sans-serif or non-proportional fonts only for special purposes, such as distinguishing source code text.

The first paragraph in each section should not be indented, but all other paragraphs should be.

### 3.2. Title and Authors

The title is 14pt Times, bold, caps, upper case, centered. Authors' names are centered. The lead author's name is to be listed first (left-most), and the co-authors' names after. If the addresses for all authors are the same, include the address only once, centered. If the authors have different addresses, put the addresses, evenly spaced, under each authors' name.

## 3.3. Page Numbering, Headers and Footers

Do not include headers, footers or page numbers in your submission. These will be added when the publications are assembled.

### 4. FIRST LEVEL HEADINGS

First level headings are in Times 10pt bold, centered with 12 pt of space above the section head, and 12 pt space below it. For a section header immediately followed by a subsection header, the space should be merged to 12 pt total.

## 4.1. Second Level Headings

Second level headings are in Times 10pt bold, flush left, with 12 pt of space above the section head, and 6 pt space below it. The first letters of significant words are capitalized

## 4.1.1. Third level headings

Third level headings are in Times 10pt italic, flush left, with 12 pt line of space above and 6 pt space below the section head. More than three levels are highly discouraged. The first word is capitalized.

## 5. FOOTNOTES AND FIGURES

### 5.1. Footnotes

Indicate footnotes with a number in the text<sup>1</sup>. Use 8pt type for footnotes. Place the footnotes at the bottom of the page on which they appear. Precede the footnote with a 0.5pt horizontal rule.

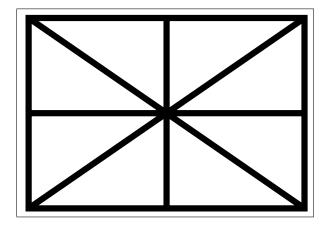

## 5.2. Figures, Tables and Captions

All artwork must be centered, neat, clean, and legible. All lines should be very dark for purposes of reproduction and art work should not be hand-drawn. The proceedings is not in color and therefore all figures must make sense in black-and-white form. Figure and table captions, with numbers, always appear below the figure. Leave 1 line space between the figure or table and the caption. Each figure or table is numbered consecutively. Captions should be Times 10pt.

<sup>&</sup>lt;sup>1</sup>This is a footnote.

| String value | Numeric value |
|--------------|---------------|
| hello ICMC   | 1073          |

**Table 1**. Table captions are placed below the table.

**Figure 1**. Figure captions are placed below the figure.

Place tables/figures in text as close to the reference as possible (see Figure 1 and Table 1). They may extend across both columns to a maximum width of 17.5cm (6.9").

#### 6. EQUATIONS

Equations should be placed on separated lines and numbered. The number should be on the right side.

$$E = mc^2 \tag{1}$$

## 7. CITATIONS

All bibliographical references should be listed at the end, inside a section named "REFERENCES", numbered and in alphabetic order. Also, all references listed should be cited in the text. To do so, use the IEEEtranS.bst bibliography style (as it will automatically sort your reference), and collect the full bibliography information in a separate file (e.g. template.bib in the case of these templates). To refer to a document, use the \cite{} command to make it appear in square brackets [2, 1].

### 8. FILLER

This is a test sentence. This is a test sentence.

sentence. This is a test sentence.
